## Work Experience

September 16 - Now

Bigo Inc.(NASDAQ:YY's subsidiary)

Senior iOS Developer

Develop the application named "Bigo Live". link: <https://www.bigo.tv/index>  
Our team contains almost 200 technical people and this application have the 3 million daily users.  
Responsible for the conflic UI and interaction such as the gesture.(UE)  
And some important functional module business logic of the iOS version of this app.

October 15 - July 16

GuangZhou Damai InfoTech Ltd

Senior Developer

1.Hybrid APP ( ionic framework ) such as: 代收快, 康保母, 铁杆神算 etc.  
2.Native APP such as: ZAO ( include the backend, official website, backstage and the api. Link: <http://zaoql.com/> )  
3.DaMai official website. (<http://damaiaapp.com/>)  
4.DaMai application configure platform. (Develop app in few minutes by the json configure file.)  
The example app links:

- a.<https://www.xiaohehe.org/> (笑呵呵)
- b.<https://appsto.re/cn/Sv5vdb.i> (大脉科技)
- c.[https://appsto.re/cn/2LM5\\_i](https://appsto.re/cn/2LM5_i) (大脉商城)

Frontend Skill Stack:

- smarty + jquery + requireJS (fast to develop the backstage)
- avalon/angularjs (mvvm structure)
- backbone+jquery+jquery+sass (the tradicational mvc structure to develop the web application)
- 5.Spread all kinds of tools to improve the work efficiency such as: gitlab, jenkins(CI), wiki, code standards, document(markdown), protocol, regular technical sharing etc.

May 14 - June 15

Guangzhou Mdt InfoTech Ltd

Junior Software Engineer

- 1. Develop the solid advertising SDK for the game.
- 2. Develop the iOS Application: 零钱夺宝 (Only in China AppStore)  
During the Develop work, I used many kinds of skills and review different kinds of code. Such as: alertView, collectionView, scrollerView openssl etc. Some other tools to reverse-engineer development such as Reveal, Cycrypt, Class-dump etc.
- 3.Use PHP to develop some api for the SDK. Use the memcache and redis to improve high concurrence problem.(LNMP).
- 4.Use the python and golang to write some script to deal with the log file and other function.

## Custom

I have many kinds of project experience. (Frontend, backend, backstage, mobile.)  
I like running, swimming, biking and surfing.  
I like the nature and adventures.  
Once biking cross the sichuan-tibet highway, around the Himalayas, almost 2000 km and cost almost 22 days with 3 friends.  
I really hope to live in NewZeland with the unspoilt nature.

## Education

Guangdong University of Technology  
Network engineering

Bachelor's degree
